

JX820D

EMERGENCY ASPIRATOR

- Adopt oil-free lubrication piston pump, equipped with over flow protection device and air filter
- Three power supply modes : AC, DC and inner battery, which is charged by constant voltage and limited current. It can be intermittently and cumulatively charged when connected to AC 100V~240V, 50/60Hz or D 12V with battery volume indication
- Can be fixed on the wall, vehicle or the side of wheel chair through a tailor-made bracket
- Light and easy to carry

SPECIFICATIONS

Max Vacuum	:	≥ 0.08MPa (600mmHg)
Vacuum range	:	0.02MPa (150mmHg)-Max Vacuum
Flow rate	:	≥ 20L/min
Noise	:	≤ 65dB(A)
Storage bottle	:	1000ml (pc)
Power supply	:	~100V ~220V, 50/60Hz; DC12V
Input	:	110VA
Battery	:	Lead acid battery (≥30min working time)
N.W.	:	4 Kg
