

# SXT-1A

## PORTABLE PHLEGM SUCTION UNIT

- Intended for absorbing secretion from patient's upper respiratory, ideal model for emergency treatment and nursing.
- Adopt oil-free lubrication piston pump, stepless vacuum control equipped with overflow protection device and air filter.
- Innovatively designed plastic case, good shape, light weight and convenient to carry.

### SPECIFICATIONS

Max Vacuum	:	≥ 0.08MPa (600mmHg)
Vacuum range	:	0.02MPa (150mmHg)-Max Vacuum
Flow rate	:	≥ 22L/min
Noise	:	≤ 60dB(A)
Storage bottle	:	1000ml (pc)
Power supply	:	~220V, 50Hz
Input	:	110VA
N.W.	:	4 Kg
