Reliable aerosol delivery you can trust...

Philips Home Nebulizer is combined with our highly efficient SideStream nebulizer. SideStream has been designed to draw more air in, via an active venturi system, resulting in fast drug delivery and short treatment times. It also has a unique diamond jet design which helps to minimize wear from frequent use and aids consistent delivery of a high-quality aerosol.

By utilizing a venturi, SideStream produces a flow rate of 16 l/min.

Innovative jet design producing consistently high quality aerosol
